

5.04 GF was also urged to write an article for the CMS Newsletter about the work he and the Lengthsman have done in the parish.

6.0 TPO Data Base

6.01 JW tabled a draft Map and Data Base showing the location of TPO orders and other information from the Herefordshire Area Map for the parish. The positions of the individual trees needs to be checked and GPS locations added as well as the condition and even existence of the trees and groups. To be carried out by GF, JW and JU.

7.0 Wildlife Data Base

7.01 PA has some maps and lists of organisations that might be able to give us information but nothing has been received to date. The AONB has indicated that they will be in contact.

7.02 PA is meeting with TLJ on the 12th October to discuss ways to proceed.

7.03 Because of the size of the parish detailed maps will be needed probably dividing the parish into manageable sections, and walking routes devised to log all flora and fauna seen throughout the year.

The meeting closed at 8.45.

Next Meeting

Tuesday 17th January at 6.30 in the Cradley Resource Room.
